Language Laboratory

The Language Lab offers a unique opportunity to facilitate language learning by means of computer-based activities. This experience is intended to hone the 4 basic language skills of the students, especially in the context of C 20 Curriculum revision by Department of Technical Education Karnataka, where much emphasis is on developing listening and speaking skills in the second semester. Our language lab is equipped with twenty computers in compliance with AICTE guidelines. The LAN connection and internet connectivity allow students to access a wide range of resources and materials for language learning. We have also installed language lab software which provides a wealth of content for language development. The integration of audio and video resources in real-life situations can provide students with a more authentic and engaging language learning experience. The fact that students can get immediate feedback and learn at their own pace is also a big advantage. We also have experienced and trained faculty for monitoring and guiding student progress and ensuring that students are making the most of the available resources.
